

Dolphin 5700

7 drive CD/DVD Tower

7 drive BD CD/DVD Tower

Robust, affordable and feature packed

Dolphin is our latest range of DVD CD tower copiers, with integrated, intuitive front panel control. Need Blu-ray ? There's a Dolphin model for you.

Dolphin is the range where price meets performance for reliable 24/7 duplication - with a 500watt power supply and integral fan cooling supporting copy test and verify functions. All Dolphin models include a 500GB hard drive for massive image storage and accurate copying, expandable up to 2TB.

Our 32 bit RISC controller allows our BD products to burn at up to true 12X speed.

Dolphin is a cost effective solution, built to the highest standard by industry leaders MF Digital.
