

LX1 Quick Connect Guide 3102 Series

www.mfdigital.com

## Connection

Using a cross-over cable and ethernet ports from each machine, connect the LX1 to the MF Digital unit with the cross-over cable.

## Operation

- 1. Power up PRV-LX1 and MF Digital unit
- 2. Once MFD unit is powered up, click on "localhost

COMP	ECT CO	œ2œ PY OR COP IE:MF100 ♡ START		OPTIONS 8 9 5 6 2 3 0	
Get in	nage	Send image	Send FTP image	Send print file	Start job

In "localhost" click "send FTP image"

## The FTPTREE dialog box will pop up.
