

## USB SD 5000 Series

### High Speed USB SD Duplication

#### Fast, efficient and cost effective

The USB SD 5000 series from MF Digital is a feature rich range of standalone USB and SD duplication products. In capacities from 1/7 to 1/31 the 5000 series provides a total range of solutions for every application need.

The USB SD 5000 series is a complete standalone PC free solution. It allows ease of use via its intuitive on board controller and helps insure protection against potentially harmful viruses which can result from PC based systems.

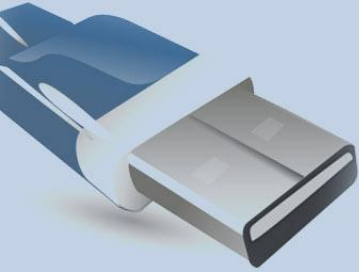

Combine this with its powerful data checking features such as High Speed Copy compare for accurate data checking, quick format facility, data capacity checking and both synchronous and asynchronous copy modes to all types of USB and SD media. The result is simply the most comprehensive, efficient and cost effective solution on the market.

Coupled with this is the MF Digital advantage - brought to you by the industry leader in duplication products. With best in class support throughout the US and Europe, the USB SD 5000 series makes perfect sense.

- Standalone - No PC required
- 3 color LED for at a glance status
- Instant Power on
- 1/7 , 1/15, 1/23 and 1/31 options
- USB and SD models
- Advanced Integrity checking
- High Speed Compare and check
- Synchronous and Async Copy
- Quick format function
- High speed Throughput
- Best in class support
