

# 5000 Series USB Duplicators

## Simple & User Friendly

The 5000 USB Copier Series comes with an intuitive 4-Key control touchpad and a feature-rich LCD readout. See a real-time display of detailed information on the bright LCD screen. Perform full copies, partial copies or format drives. Use the Compare function to confirm successful copies. With just the push of a button, you have all the tools you need to copy your USB flash media.

## Fast, Efficient Duplication

Choose from either our 7 Drive or 11 Drive high-volume output USB duplicators. Both perform high speed copies up to 10MB/sec and with full support for Synchronous & Asynchronous copy modes.

## Advanced Features

The 5000 Series bit-by-bit Compare function lets you confirm successful USB copies at the bit memory level, ensuring perfect copies every time. Also our Advanced asynchronous duplication means no waiting and no interruption as each drive channel can independently load, unload, and copy your USB data.

## Truly Compatible

The 5000 Series USB models support most USB Mass Storage Devices including Flash Drives, Hard Drives and Card Readers. Supports High speed USB 2.0 and is backwards compatible with USB 1.1. Supports most major file systems, including Win, Mac, DOS, Linux.
