

# Baxter Digital Assistant

## Small Price, Big Benefits

### Simple, Easy, Compact

Baxter is a new kind of disc duplicator; it's a personal digital assistant. A fully automated disc handling system, the Baxter automates everyday tasks.

**Baxter Suite** – Enjoy the full benefits of Baxter with the complete software suite. Dupe, rip and backup from a single system or customize your software starting with any feature listed below.

**Copier** – Enjoy unattended copying of virtually any CD or DVD. Create discs from files, copy from originals or queue several jobs for continuous production.

**MP3 Ripper** – Automate the process of converting CDs to MP3 with the Baxter rip feature. Load up your audio CDs and let Baxter rip them to MP3 files. Get disc, artist, genre and more to create file names and ID3 tags. It's never been easier to convert your CD collection to MP3.

**Backup Device** – CD and DVD are today's medium for archive and backup. The Baxter solution is an excellent tool to automate this process. Advancing this concept is the ability to easily schedule data backups during off peak hours. Simply load the Baxter, then set it and forget it.

The Baxter is ready to serve you; Baxter is your personal digital assistant.

### Baxter Configuration Options

Duplication	CD DVD Duplicator Only
MP3 Ripper	Automate CD Conversion to MP3
Back Up	PC, LAN, FTP Back up Software

# Baxter Digital Assistant

## USB Plug-n-Play

The Baxter offers more versatility and flexibility than any other entry level duplicator. Based off award winning MF Digital software, Baxter gives you the tools to simplify everyday tasks. Have a complete disc management system up and running within minutes of opening the box.

## CD DVD Copying

We've worked hard to make life easy for you. Use relay mode to copy sets of masters unattended. Create copy jobs from a master disc, from files on your computer or from files on your network. Create sets of great sounding audio CDs from data MP3 and WMA files.

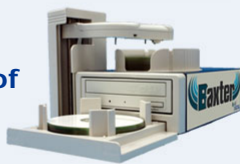

## MP3 & WMA Batch Ripping

Baxter is the easiest way to convert an existing CD set to MP3 or WMA files. Precisely control file preferences such as CD titles, artist name, track names and more when using ID3 tags. You can fine tune ripping with advanced audio processing features to get that exact sound you're looking for.

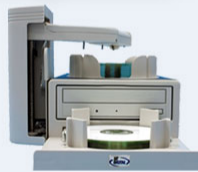

## Disc Backup System

Baxter backup is a very powerful tool. Generate incremental backups, implement filters and span to multiple discs with the Backup Platinum software. The powerful scheduler makes it easy to define the backup plan or implement multi disc recovery tasks with ease.
