5000 Series
CD DVD Duplicators

Advancing the Power of Tower Duplicators

Simple, Flexible, Affordable

The 5000 Series duplicator empowers you to do more with less effort. With a wide range of solutions MF Digital has the right system for the job.

Starting with solutions based off one-touch action MF Digital made sure "ease of use" was a key design element. Advancing that philosophy we created the only network ready duplication tower, the 5906. These advanced systems use Windows XP technology to deliver the most efficient tower configurations available in the market.

The MF Digital 5000 Series is truly in a class by themselves with innovative designs to save you both time and money.

Let our tower duplicators do more for you; experience the future with MF Digital.
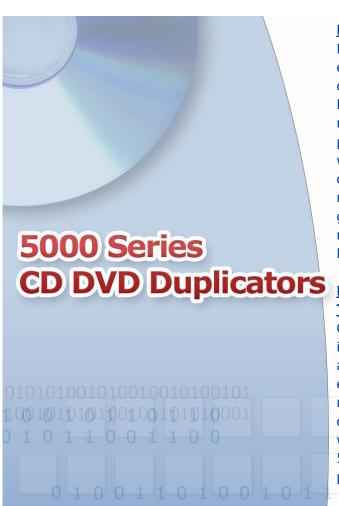

Advanced Systems   DVDR

Ergonmoic Design   Instant Setup

One Touch Keypad   Audio Verification

CDR   Limitless Data Storage

System Configurations

Network Group	Expand and Control Multiple Systems

5000 Series CD DVD Duplicators

Empowered Towers

Not all towers are created equal. From the user friendly designed of the 5907 Value Line duplicator, to our flagship network 5906 tower - our professional grade systems will deliver pristine CD or DVD copies dupe-after-dupe. Do not settle for anything less, give yourself the tools you need. Get yourself an MF Digital tower duplicator.

Economy Value Line Towers

Our Value Line 5907 duplicator is simple to operate with many advanced features. The ergonomic design of 5907 makes it a pleasure to operate. Designed to withstand 24/7 operation the 5907 never needs a cooling off period.

Network Ready 5906 Tower

These professional grade systems are the only network towers available on the market. With license free Windows XP network client software, sending jobs from a remote location is nothing more than a click-of-the-mouse.

Network Group Towers

The power of the 5906 empowers you to do more. Easily expand a single system to additional units with the flexibility to control each unit from a single location. Assign jobs to a single unit or any number of available systems. This ability maximizes production and streamlines your operation. Never before has this type of control been at your fingertips for CD DVD duplicator towers.
