

# Scribe 9000 Duplicator Series

## Raising the Bar for Disc Duplicating

### Durable, Reliable, Affordable

The Scribe 9000 Series is a feature rich disc duplicating & printing system. Easy to use, simple to set-up with snap-n-go printing options, the Scribe Series is an all new CD/DVD production system.

Engineered to perfection, Scribe uses a 300 disc input which is three times greater than its closest competitor. The KVM PC built-in solution means each Scribe System is pre-configured which results in easy setup without error - simply connect Keyboard, Video and Mouse and begin duplicating & printing.

These advanced features make MF Digital an industry leader in Disc Duplication. From the moment you open the box to the last disc of the day, you can count on Scribe.

Let our duplicator do more for you; experience the future with MF Digital.

## Ready To Go!! PC Built-IN

Scribe 9000 offers more versatility and flexibility than any other desktop duplicator on the market. Based off the pre-configured, built-in PC, the Scribe System simply needs a keyboard, video and mouse and then its ready to duplicate. This KVM approach allows MF Digital to offer unique solutions unparalleled in the industry.

## Lights Out Production

The Scribe 9000 professional grade duplicator is surprisingly easy to operate with unlimited job queuing, detailed activity logs and database exporting ability. You have the comfort of knowing every job is submitted, recorded and processed with 100% accuracy – Truly lights out production.

## Network Ready

Every Scribe System comes with license free Windows XP client software. Never before has it been this economical to centralize disc duplicating. Scribe uses advanced "spindle select" technology so both CD and DVD recordable media can be present - ready for any job sent from the network.

## Printing for Any Occasion

MF Digital offers a variety of disc printing solutions fit for any need. For economical, full color printing we offer the PicoJet inkjet printer, for quick disc printing speed we offer the Prism thermal printer, and for photo realistic images which yield better resolution than silk-screen we offer the P55 dye-sublimation printer.
