## Video Ripping Systems

Fast, Reliable, Affordable

MediaGrabber Ripstation from MF Digital is the most advanced commercial Data Disc Ripper available. Ideal for media companies, aggregators, video archives and home installers with a need to migrate DVD or BD content to server based systems.

Utilizing our range of robotic platforms, Ripstation MediaGrabber completely automates the migration progress from DVD and optionally Blu-ray, automatically, disc after disc. The advanced MediaGrabber software extracts to either the original file structure of the disc, creates a single global disc image, producing a bit for bit copy of the original, or produces an encoded file to H.264. The "KVM" PC built-in solution means each Ripstation System is pre-configured which results in easy setup without error - simply connect Keyboard, Video Monitor and Mouse and begin ripping.

MF Digital offers unique features which other manufacturers do not. From the moment you open the box to the last disc of the day, you can count on Ripstation.

Click-n-Rip   Autoloading

Web Based Metadata   Software Wizard

10 Minute Setup   Asynchronous

Ripstation 7000 Series

Automation
The entire process is managed by the MediaGrabber application for complete hands off data extraction with a range of solutions starting at 100 disc PC based solutions to 300 disc fully integrated designs.

Powerful Encoding
MediaGrabber can generate file for file copies, or produce H.264 format MPEG4 files at any resolution, plus MKV files.

Flexible Scripting
The MediaGrabber encoding engine can be customized for all video formats (some are optional) , plus dedicated workflows. Need an encoder only dedicated machine? Configure MediaGrabber to match your workflow needs.

Ripping Accuracy
MediaGrabber incorporates enhanced error detection and correction including drive C2, CRC and multiread modes for data integrity and also has the ability to autorun third party programs for enhanced data verification.

Integrated metadata
MediaGrabber supports external XML data and folder jpg images for flexibility, in addition to embedded, iTunes compliant metadata for all MPEG4 formats including deep data and high resolution cover art.

MediaGrabber – the industries leading fully automated Video system for all media server and playing platforms.

The MF Digital Family of DataGrabber System Specifications

	Ripstation 7601	Ripstation 7602	Ripstation 7604
Model Number	7601XDP	7602	7604
Drive Configurations	1	2	4
Disc Capacity	100	300	300
Hard Drive Capacity	N/A	500GB	500GB
Speed, Discs Per Hour**	15	35+	55+
PC Built-In Operation	No	Yes	Yes
Auto Loading System	Yes	Yes	Yes
Multi-Drive Data Ripping	Yes	Yes	Yes
BD Option?	**Yes**	**Yes**	**Yes**
Power Consumption	100-240 Watts	200-248 W	200-248 Watts
Dimensions (W x H x D)	16.5" x 9" x 16.5"	15.3" x 10" x 10.8" (7604)	22" x 22" x 16"
Weight	7601XD *21lbs (9.5kg)*	7602 *36lbs (16kg)*	7604 *38lbs (18kg)*

**CD Throughput will vary based on content, settings & master quality. DVD will be slower
