

APPROVED MEDIA

Pioneer DVR-A06 DVD Recordable Drive

Thank you for purchasing an MF DIGITAL DVD-based copier. The unit you have purchased is equipped with the latest in DVD-R technology, the Pioneer DVR-A06 4X DVD-R/+R Drive. This DVD-R/+R drive demands that quality DVD-R media be used. The use of unapproved media may result in high fall-out rates or discs with high errors and possibly only writing at 1X or 2X. To ensure your 4X DVD copier performs as designed, use only Pioneer approved DVD-R recordable media. Below is a list of all supported Pioneer media to be used with the DVR-A06 drive.

The following manufacturer's 4X media is approved for use with the Pioneer DVR-A06 Recordable Drive:

- Panasonic
- Mitsui
- Taiyo Yuden
- Maxell
- TDK
- Verbatim
